

Application for Certification as an Eligible Energy Resource Under the Delaware Renewable Energy Portfolio Standard

1.	Name of Facility P3H3 UC:
2.	Facility Address 17569 Nassau Commons Blvd. Lenes, DE. 19958
	Is the facility located within the PJM control area? Yes Dif No, does the Facility have import capabilities ¹ ? Different No.
3.	Name of Owner Sohn Mancuso
	Mailing Address 35759 Spinnaker Circle Lewes DE 19958
	Phone 302-045-2159 Fax Fax
	Email JGM @ 3GM Custom Painting, Com
4.	Name of Operator Sohn Manuso
	Mailing Address 35759 Spinna Ker Circle Lewes, DE. 19958
	Phone 302-645-2159 FaxFax
	Email JGM @ SAM Custom Painting, Com

¹ Documentation will be required to substantiate import capabilities into PJM

5. Name of Contact Person Sohn Mancuso			
	Mailing Address 35759 Spinnater Circle Tawes DE 19958		
	Phone 302-645-2159 Fax		
	Email 3GM @ 3GM Custom Painting, Com		
6.	Name of REC/SREC Owner Sohn Mancuso		
	Mailing Address 35759 Spinnaker Circle Lenes, DE. 19958		
	Phone 302-1045-2159 Fax		
	Email 39M @ 39M Custom Painting. com		
7.	List all PJM-EIS GATS State Certification Numbers assigned to this facility:		
	Tends 100 sa		
8.	Operational Characteristics:		
	Fuel Types Used (check all that apply):		
	☐ Gas combustion from the anaerobic digestion of organic material		
	☐ Geothermal `		
	☐ Ocean, wave or tidal actions, currents, or thermal differences		
	☐ Qualified Biomass ⁱ		
	☐ Qualified Fuel Cells ⁱⁱ		
	☐ Qualified Hydroelectric ⁱⁱⁱ		
	☐ Qualified Methane Gas captured from a landfill gas recovery systemiv

Yes* No 	plar or wind sited in Delaware: nstructed or installed with a workforce the ware residents? employ, in total, a minimum of 75% workers
 1. If the Applicant's installation is so a. Was the facility physically conconsists of at least 75% Delay Yes* No b. Does the installing company who are Delaware residents? Yes* No 	plar or wind sited in Delaware: nstructed or installed with a workforce that ware residents? employ, in total, a minimum of 75% workers

^{*}If Yes, please attach supporting documentation (see pages 7-8 for details). Please note, in order to qualify for the Labor/Workforce Bonus, at least one of the options (a. or b.) must be met.

I, Sarah Thom Pool (print name) hereby certify under penalty of perjury that

- 1. I have made reasonable inquiry, and the information contained in this Application is true and correct to the best of my knowledge, information and belief.
- 2. I am authorized to submit and execute this Application and to bind myself and/or my company to the representations contained herein.
 - 3. I/my company agree(s) to comply with and be subject to the jurisdiction of the Public Service Commission of the State of Delaware for any matters arising out of my submission of this Application or the granting of the Application.
 - 4. In the event that any of the information contained in this Application changes pending the consideration of this Application or after the Application is granted, I/my company will amend the Application to provide the Commission with such changed information.
 - 5. I acknowledge that if any of the representations made in this Application or in any amendment thereto are found to be untrue when made, I/the company may be subject to sanctions, including but not limited to monetary fines and/or the revocation of any Certificate granted as a result of the representations made in this Application.

Required Documentation:

If the facility is customer-sited generation, attach a copy of the utility's Final Approved Interconnection Agreement

 One copy of U.S. Department of Energy, Energy Information Administration Form EIA-860, if rated capacity is >1.0 MW

- 1. Increased production of landfill gas from production facilities in operation prior to January 1, 2004 demonstrates a net reduction in total air emissions compared to flaring and leakage;
 - 2. Increased utilization of landfill gas at electric generating facilities in operation prior to January 1, 2004 (i) is used to offset the consumption of coal, oil, or natural gas at those facilities, (ii) does not result in a reduction in the percentage of landfill gas in the facility's average annual fuel mix when calculated using fuel mix measurements for 12 out of any continuous 15 month period during which the electricity is generated, and (iii) causes no net increase in air emissions from the facility; and
- 3. Facilities installed on or after January 1, 2004 meet or exceed 2004 Federal and State air emission standards, or the Federal and State air emission standards in place on the day the facilities are first put into operation, whichever is higher.

[&]quot;Qualified Biomass" means electricity generated from the combustion of biomass that has been cultivated in a sustainable manner as determined by Delaware Department of Natural Resources and Environmental Control (DNREC), and is not combusted to produce energy in a waste to energy facility or in an incinerator.

[&]quot;Qualified Fuel Cells" means electricity generated by a fuel cell powered by Renewable Fuels, as that term-is defined in Section 1.0 of the Rules and Procedures to Implement the Renewable Energy Portfolio Standard, Delaware Public Service Commission Regulation Docket No. 56.

[&]quot;" (Qualified Hydroelectric" means electricity generated by a hydroelectric facility that has a maximum design capacity of 30 megawatts or less from all generating units combined that meet appropriate environmental standards as determined by DNREC.

[&]quot;" "Qualified Methane Gas" means electricity generated by the combustion of methane gas captured from a landfill gas recovery system; provided, however, that:

[&]quot;Customer-sited Generation" means a generating unit that is interconnected on the end use customer's side of the retail electricity meter in such a manner that it displaces all or part of the metered consumption of the end-use customer.

vi "Community-owned Energy Generating Facility" means a renewable energy generating facility that has multiple owners or customers who share the output of the generator, which may be located either as a stand-alone facility or behind the meter of a participating owner or customer. The facility shall be interconnected to the distribution system and operated in parallel with an electric distribution company's transmission and distribution facilities.

Documentation Required for Delaware Labor/Workforce Bonus

- 11. If the Applicant's installation is solar or wind sited in Delaware:
 - b. Does the installing company employ, in total, a minimum of 75% of workers who are Delaware residents?

If you answered yes to "b." above, complete the following as evidence:	
CUC Solar LLC.	The Fallowi

employed the following individuals (list EVERY employee on the payroll during the period from project start date until project completion date). Projects are considered complete upon final interconnection approval to operate. (Attach additional sheets if necessary)

Project Start Date: 10 26 17 Project Complete Date: 9/30/18
